

Introducing Studio XE

Do virtually anything with your PDFs

Docudesk® Studio XE is the most complete and affordable PDF software on the market. Its three packages offer unique features designed to serve any PDF need, and its exceptionally well-designed and easy-to-use interface makes Studio XE the go-to PDF solution.

PRO+OCR

Package

The Pro + OCR package is the **most complete PDF solution**. It offers all the advanced features available in Soda PDF Pro, plus the innovative OCR function that allows users to create digital and editable versions of scanned documents and images.

Read PDFs & Digital Books

Built-in reader offers unique options that allow users to open 300+ file types, read PDFs in 3D, and work on two documents on the same screen.

Create PDFs in Seconds

PDF creator helps users create PDFs from virtually any file format, batch create multiple PDFs, and produce PDFs from images or directly from a scanner.

Convert PDF Files

Powerful conversion tool allows users to convert PDFs to popular file formats including Word, Excel, PowerPoint, and HTML with accuracy.

Edit and Customize PDFs

Easy-to-use editing features enable users to add text to, split, extract, rotate, adjust, and modify pages as desired.

Insert Page Elements

A variety of insertion options help users manage PDF files by inserting page elements such as page numbers, watermarks, and headers & footers.

Review and Annotate

Useful revision tools offer users a way to perfect their work while collaborating with others and to compare the differences between two documents.

Create Fillable Forms

Form-creating feature allows users to design personalized forms such as invoices and surveys and to import/export form data.

Secure & Sign Files

Advanced security options such as 256-bit AES passwords and legally binding digital certificates help protect important files.

Optical Character Recognition

OCR feature helps recognize the text within images and transforms scanned documents and images into editable PDFs.
